

NEW for 2026!

We are making *Nonlinear Dynamics, Psychology, and Life Sciences* available to our active SCTPLS members as an optional add-on to your SCTPLS membership. The option will give you access to all NDPLS articles published since its start in 1997. You'll see the selection box when you renew your membership for the coming year:

<https://www.societyforchaostheory.org/membership.cgi>

If your current membership extends to 2026 or beyond, no worries. All you need to do is to visit the membership form, and click the box for a one- or two-year add-on. A small additional payment will be required.

If you are wondering when your membership expires, please check the date on the SCTPLS mailing envelope for the president-elect ballot or on one of our other recent mailings to you. The expiration date appears next to your name.

We will send you an e-mail when your membership renewal and access to all volumes has been activated. It will contain instructions for activating your access.

Please remember that *NDPLS* is a subscription journal, not an open-access journal. For terms regarding the fair use of *NDPLS* articles, please visit the NDPLS web site and select PERMISSIONS from the main menu.
